Welcome Message

Themba Bisi

Ceo Of Company

At Liyema No Mpendulo Plant Hire, we're not just about heavy machinery and hard hats (though we do love those). We're about people skilled teams, happy clients, and communities growing stronger because of the opportunities we create. Think of us as your go to problem solvers, whether you need plant hire, logistics, plumbing, or a squeaky-clean worksite we are here to help you.

We take our work seriously, but we don't take ourselves too seriously. Because at the end of the day, business should be about trust, teamwork, and maybe just a little bit of fun along the way. So, thanks for stopping by! Let's build something great together.

About Company

Liyema No Mpendulo Plant Hire is a dynamic, black-owned company providing a diverse range of plant hire services and related solutions to the mining and commercial industries. Beyond plant hire, the company offers essential support services, including logistics and transport, plumbing, fencing, specialized cleaning (belt, plant, and change house), as well as lighting tower and mobile equipment provision.

We aim to be a preferred service provider by delivering competent products and services with a strong emphasis on quality and safety, seeking to become a valuable partner for our clients' operational needs.

Precision in our work, empowerment in our mission, and excellence in every task we don't just operate machines, we build the foundation for progress.

*Precision in our work, empowerment in our mission, and
excellence in every task we don't just operate machines, we build
the foundation for progress.*

Vision & Mission

Our Vision Statement

Our vision is to contribute to the economy of our country, as well as to make a difference in society by delivering competent Products and services with no compromise in order to be the preferred professional service provider (PSP) of choice, through excellence and proficiency in all aspects of our operations.

Our Mission Statement

Our mission is to deliver competent products and services with a strong emphasis on quality and safety, seeking to become a valuable partner for our clients' operational needs. We are committed to achieving excellence and proficiency in every task, building the foundation for progress for our clients and the communities we serve.

Our Commitment to Safety

Safety is paramount at Liyema No Mpendulo Plant Hire. We are committed to maintaining safe work environments and ensuring that our employees and clients adhere to the highest safety standards.

Core Service

Our core service is plant hire, offering essential earth-moving equipment for mining and industrial operations. We also provide a comprehensive suite of complementary services to ensure efficient and safe site activities. Here's a breakdown of common equipment types we offer:

Excavators

For digging, trenching, and material handling in various sizes.

Bulldozers

Ideal for pushing large quantities of soil, sand, or debris for site preparation

Loaders

Lifting and moving materials like soil, gravel, and sand, also used for loading trucks.

Dump Trucks

Essential for transporting loose materials off-site.

Graders

Leveling and smoothing ground surfaces in road construction and site preparation.

Backhoes

Versatile for digging, trenching, and material handling with front loader and rear backhoe arms.

Graders

Compact, maneuverable machines with various attachments for diverse tasks in confined spaces.

Other **Service**

Logistics and Transport: We keep your operations moving with reliable transport solutions and streamlined logistics. From equipment haulage to on-site material handling, we ensure timely deliveries and efficient resource management so your projects stay on schedule.

Plumbing: Our skilled team handles industrial and commercial plumbing needs, from pipe installations to maintenance and repairs. We provide durable, efficient solutions to keep water systems flowing smoothly in any work environment.

Fencing: Security and safety start with proper perimeter control. We supply and install robust fencing for mines, construction sites, and commercial properties—tailored to your site's specific needs for protection and compliance.

Comprehensive Cleaning Services: Including belt cleaning and plant cleaning (change houses, conveyor belts, factory floors, machinery, testing facilities, and diesel bay management).

Lighting Tower Services: Supply and servicing. Mobile Equipment Provision Wash Bay Services
